

New features and reports to improve your Fastrax experience!

Reports

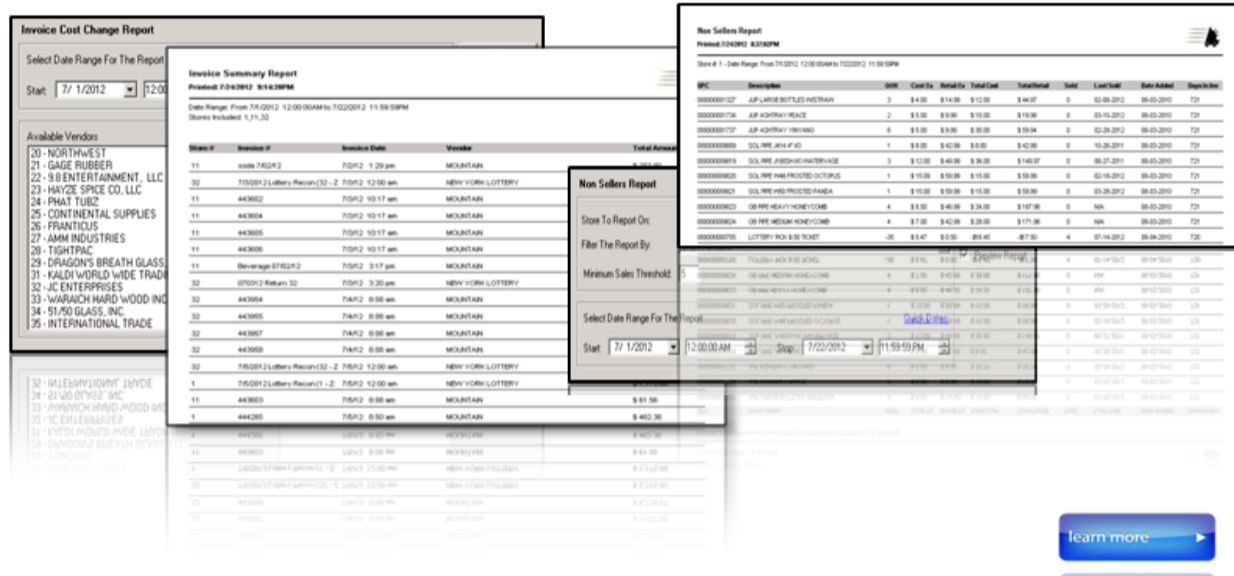

New and improved functions, views and modifiers enhance your valuable reports by producing a more robust and informative tool.

Technical Support

Need help with software related errors and problems?

Send us an email of your incident with details of your issue and our support staff will promptly assist you.

Pricebook Management

Because your time is valuable, you can now change prices for multiple Pricebook zones through Mass Updates!

Documentation & Videos

POS

The new **Daily Reconciliation** option enables you to check and reconcile multiple register Z's at once.

Coupons

Manufacturer coupons can now be scanned at the POS.

Whether you are new to Fastrax or an experienced user, click the button below to check suggested documents for enhanced usability.

FasTrax Warehouse is a new software package designed for Wholesalers.

Separate from our POS and Director, this stand alone package is meant to fill the void for a simplistic wholesale package. Features include...

1. MSA Reporting
2. EDI Ordering and Order Projections
3. Quick and Accurate HandHeld Picking
4. Detailed Inventory interface
