

# New From FasTrax

## Scheduled Reports

Using our new Scheduled Reports feature is a simple way to organize the sales information you require without spending time setting up and printing individual reports.

Scheduled Reports can be set to run daily, on a specific weekday(s), weekly, or monthly.

Reports are conveniently organized as a PDF and can be set to automatically send to a specific email address or via the Corporate Messenger utility.

### Reports Currently Available

- Invoice Cost Change Report
- Department Sales
- Register Z
- Manual Time Clock Entries
- Cycle Count Exceptions

Available via software update

Make sure to check out all of our products and solutions.

## Zebra Barcode Printing Integration

Our Barcode Printing utility is now able to directly print via a Zebra printer.

This seamless integration offers the ability to design custom labels accessible through the FasTrax Director.

Available via software update

## Interactive Invoice Cost Change Report

An interactive grid can be accessed through this report to display cost changes and a suggested retail.

Suggested retails are auto calculated based on previous margins, however, through the grid you have the ability to edit and apply your own retail.

Available via software update
