

New From FasTrax

Biometric Security

Stop losing payroll dollars on fraudulent time clock skimming. Up to 5% of overall payroll goes to "buddy punching"

Plus, the elimination of assigned passwords creates a greater sense of employee accountability.

Add the convenience, security and employee accountability that our fingerprint biometric security offers.

- Unique ID's— PCI Compliant
- No more "buddy punching"
- No shared or compromised passwords
- Faster POS and Timeclock logins
- Deter and detect fraudulent Employee logins
- Decrease inventory shrinkage

FasTrax Warehouse

Learn about our new software package designed for Wholesalers.

Separate from our POS and Director, this stand alone package is meant to fill the void for a simplistic wholesale package.

Features include...

- MSA Reporting
- EDI Ordering and Order Projections
- Quick and Accurate HandHeld Picking
- Detailed Inventory interface
